Amitayus, the crowned Buddha of the long life, is worshiped for a long life. Buddha Amitayus is a bodhisattva and symbol of boundless life.

For the Khordong line, S.H. Khordong Terchen Tulku Chhimed Rigdzin Rinpoche has been the traditional line holder. The Khordong Monastery (gompa) in Kham Trehor, eastern Tibet was founded by Sherab Mebar, a disciple of Padma Trinlae, who was a disciple of the fifth Dalai Lama

Most of Khordong Termas were discovered in the mid-19th century by Khordong Terchen Nuden's Dorje Drophan Lingpa Drolo Tsal, who was recognized as the incarnation of Kyechung Lotsawa, a direct disciple of Padmasambhava.

Nuden Dorje spent most of his life in eastern Tibet and stayed in the Khordong Gompa during his later years. Chhimed Rigdzin Rinpoche was after Kalden Lingpa the last incarnation of Nuden Dorje. The monastery in Tibet is now run by Tulku Chhimed Gyaltsen Rinpoche and others, enthroned by Tulku Chhimed Rigdzin Rinpoche.

Tulku Chhimed Gyaltsen Rinpoche is on his first trip across Europe this year. In the years before, he already has visited the main center of the Khordong Line in Europe, which is located in Poland, Drophan Ling, and has already given major teachings and initiations there.

We are very pleased to welcome him to our Retreat House. He will be accompanied by a Khenpo and the German line holder, Gudrun Knausenberger.
